Customer Reviews

The Adult coloring book best sellers coloring book is an excellent collection of pictures to color. I love the variety of designs. There are animals, flowers, birds, geometric designs and more. I can get lost in the designs. It really works to relieve stress and get my mind off of things. The pages of the coloring book are in excellent condition. There are no tears. Each page is thick enough to take the color well. In other words, the color from the colored pencils do not bleed through. The pages don't tear easily when you put pressure on them coloring. Each page is perforated so you can tear the page out along the perforation if you want to display your work. The book is small in size although there are a lot of pages to color. However, the designs are intricate enough where you can take a long time coloring if you choose or not. The page arrived on time undamaged. I would buy again for a gift.

Length: 3:16 Mins

I own a couple of coloring books by this publishers. In "Best Sellers", they have put together a compilation of designs that appear in other books they have published. I definitely saw designs that appear in "Owls" and "Animals" which are two of the books I own. What I like about this book is that it gives you a variety of styles at a low price. These designs from this publisher appear, for the most part, to be licensed. I've definitely seen some, but not all, of them in other coloring books. The designs include: flowers, animals, owls, birds, mandalas, abstract, and cupcakes. The emphasis seems mostly on mandalas. The lion on the cover is included in the book. I choose to color that one first and, as you can see if my photos post, the fun of coloring is that you can interpret designs in many different ways. The book is a smaller format than usual at approximately 8.25 x 8.25 inches. All of the designs stop well before the binding. The designs are printed on one side of thin white non-perforated paper and are centered well on the page. The binding is glued but there is plenty of room for you to cut a page out if you choose to do so. I was easily able to break the spine by opening the book fully and pressing down hard on the binding area. In doing so, I could get the book to lay flat. I test all of my coloring books with a variety of coloring mediums. I will list those mediums in the comments section below. Here are the results of my test on this book. All of my markers bleed through and my gel pens and India ink artist pens leave a distinct shadow on the back of the page. My coloring pencils work well with the paper although the hard lead pencils leave dents at the back of the page. I will use a piece of chipboard or heavy paper behind the page I am working on so I don't ruin the following page with leaking ink.

This is just what I need at the end of the day to step into my own comfort zone, let loose and still makes me chuckle at life! The pics are the perfect balance between calming childish fun and ALL the luxuries of being an adult! A win-win!! Highly recommended!

This book is such a stress reliever. It has a wide variety of styles to color that it is impossible to get bored. I really appreciate the pages being thick enough for pencils or gel pens. Great purchase.

This is as it says-best sellers. The book is a repeat of many others pictures they have put out. I know because I have lots and lots of Adult Coloring Books.

Great book! I have like three pages left and it saddens me that I will have to find a new book.

A family of 9 on vacation took turns doing their creative coloring! The suggestion was made to keep

it available for next year...Good colored pencils are essential.....

Good coloring book, not very different from most of the others. Pages shorter in length so you are getting 8x8 instead of 8x11
