Rethinking Early Childhood Education

Synopsis

Rethinking Early Childhood Education is alive with the conviction that teaching young children involves values and vision. This anthology collects inspiring stories about social justice teaching with young children. Included here is outstanding writing from childcare teachers, early-grade public school teachers, scholars, and parents. Early childhood is when we develop our core dispositions the habits of thinking that shape how we live. This book shows how educators can nurture empathy, an ecological consciousness, curiosity, collaboration, and activism in young children. It invites readers to rethink early childhood education, reminding them that it is inseparable from social justice and ecological education.

Customer Reviews

The book is a collection of personal accounts in real classrooms, with real children. All stories touch on very delicate subjects such as: race, skin color, anti-bias curriculum, prejudice, disabilities, gender issues, war, equity, etc.. Some stories made me cry, some had excellent ideas. This book presents good ways of opening dialogues with young children about touchy subjects. It has a beautiful messages of children learning to be tolerant and understanding, things that are definitely lacking in the world we live in.

This book was used for a graduate class and was full of good ideas and stories. I enjoyed it and took many "idea" notes.

bought this book because it was a requirement for my child development class. I can say I really enjoyed reading it. Even though it was required I enjoyed reading it unlike other material that is required.

Love, love, love this! I agreed with most every single article. It really gave me something to think about. I would highly recommend it to anyone who is teaching young children.

Great book and analysis about nowadays education and the new approach to educate children and teachers as well by using more thinking skills

It's a great book for a great price! I enjoy reading this even outside of class.

I love reading all the articles talk about different topics
