The Reluctant Bachelorette (A Romantic Comedy)

Synopsis

Unknowingly cast as the bachelorette for her town's charity event, Taycee Emerson wants out. Especially when she discovers her old teenage crush, Luke Carney, is one of the bachelors and it's up to the viewers--not her--to decide which bachelors stay or go. Coerced into participating, Taycee does what any self-preserving girl would do. She launches a subtle attack on Luke's good name with the hope of getting him voted off the show. Unfortunately, Luke's an eye-for-an-eye kind of guy, and when he discovers what she's up to, it means revenge.

Customer Reviews

Most of us remember that childhood crush. That unrequited love we had for a friend's older sibling or an older sibling's friend. I know I had one or four. I've even been able to stay in touch with one or two to see how they've grown & changed. Taycee is still crushing on Luke, her big brother's best friend from high school. Like Taycee, I have a huge problem with change. It's freaking scary!! And just like Taycee I have come to see how much change is needed, to grow and have new experiences. I related to Taycee in a hundred different ways. She's sentimental and fiercely protective over what she loves. Her world is incomplete without Luke, but comes completely undone when he moves back to their hometown! I loved how they teased and tested each other as

their relationship grew from childhood infatuation on her part to well...you'll have to read to find out. It's so worth it! This story is filled with laugh out loud moments and some pretty good pranks. Luke is just DE-LICIOUS!! It was so interesting to see how Taycee & Luke remembered the same past in two entirely different ways. This book is a fantastic, light read. There was no bad language and very little, if any, sexual content.

This is a very clean romance with just a bit of kissing. It felt a little young to me even though the characters are in their mid to late 20's. If not for the Bachelorette aspect, I would think I was reading a high school romance. Overall a sweet story with a happy ending. Loved the movie theater scene towards the end!

This is an easy read & I liked the general premise, but found the lead character Taycee's obsession with Luke to be a little hokey. He was a childhood friend of her brother & I thought that at some point we'd find out that they had actually dated when she was a teenager & he left town promising to call, but didn't. When it turned out that they never dated I thought, "Really? No guy was good enough for her for the past 10 years yet she never actually dated Luke in the past?" But according to some other reviews, evidently that has happened. I got it as an inexpensive download for my kindle so it was enjoyable but not worth buying in paperback.

Fun, entertaining read from start to finish. A definite must-read for anyone who loves a good, clean romantic comedy. I laughed out loud at parts of it and I loved the scene under the stars. Taycee is forced, by her best friend, into participating in a bachelorette show on the internet in hopes of raising money for her small farming town. Worse, her old ex-crush comes back to town and is one of the bachelors. Taycee is adamant about getting him off the show and proving that she is over him. But is she? Anderson weaves funny situations and tender moments throughout this novel and creates yet another unforgettable story with realistic, layered characters. Anderson definitely knows how to write romance.

This book was such a fun read! I couldn't put it down!! The characters are fun and you will fall in love with them instantly! Taycee is a fun quirky girl that you will find yourself cheering for! Luke is the guy that every girl dreams about falling in love with! You will find yourself laughing, and smiling the entire time reading this. Make sure you have a lot of time on your hands before you pick up this book, because you will not want to put it down!! You will want to just keep reading no matter if you

can or not! All of Rachael's books are worth reading over and over again!

Rachael Anderson did a great job not only flushing out the characters in *The Reluctant Bachelorette*, she also made you fall in love with them! I greatly enjoyed my reading escaped as I temporarily lived in the Bachelorette's world. This book is definitely a feel good romantic book, not too heavy and not too light! The perfect combination of love, laughter and a little realistic adventure.

This is a cute, clean romance. It's pretty fluffy, and perfect if you enjoy reality dating shows. This book is totally clean. No cussing, no sex, and no violence. The kisses that do happen are very chaste. I really loved that I could get lost in the story without having to worry about something questionable coming up. Even though this book is written for adults, it is appropriate for anyone ages 14 and up. The main character, Taycee, spends six weeks as the bachelorette on an Internet dating show to help raise money for her town. She meets a lot of great guys, and a few not so great ones. I appreciated the focus on real love in this book, and I enjoyed the journey that the MC goes through. This was a cute romance book that I could gladly recommend to anyone that liked clean reads.

I LOVED this book. I enjoyed every minute of reading it. I loved Taycee, she is such a fun character. She is a bit of a klutz, like me, and she knows how to play pranks with the best of them. This was such a romantic story, I loved the ending, it was so touching I cried! And Luke...he is the best love interest in any of the books I've read recently, he knows how to goad Taycee into doing just what he wants her to do, and his practical jokes he played on her were hilarious! I'd have to say that this book is hands down my favorite book of any of the books that I've read this year! Thanks to Rachael Anderson for writing such a great, romantic and CLEAN book for us to enjoy.
