Predatory Kill: Can Too Big To Fail Get Away With Murder?

Synopsis

Experience the mystery and suspense of the best-selling legal thriller. Can too big to fail get away with murder? Read the compelling legal novel by the best-selling author of *An Involuntary Spy*. Brent Marks had paid his dues as a lawyer, having taken his share of divorces and drunk driving cases over his 20 year career, but had finally reached a place in his life where he could take on cases of social importance. What he least expected was for April Marsh's predatory lending case against the big banks for wrongful foreclosure on her parent's home to turn into a murder investigation. April's mother was murdered. Her father was beaten within an inch of his life, and she believes their predatory lender is to blame. Are banks really that above the law?

Book Information

Audible Audio Edition

Listening Length: 4 hours and 38 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Kenneth Eade

Audible.com Release Date: October 15, 2014

Best Sellers Rank: #60 in Books > Law > Business > Banking #45672 in Books > Audible Audiobooks > Fiction & Literature #73357 in Books > Mystery, Thriller & Suspense > Thrillers & Suspense

Customer Reviews

First, please disregard the one-word descriptions above: they are the "codes" that MUST be used to get to this personal review box. What I really think is certainly nowhere near as flattering! I know that the writers associated with the many "publishing houses" owned by are rarely accomplished writers; however, they are willing to pay for their books to be published, or they submit their work for free--and seems to be quite willing to accept any collection of "sentences" for publication. I know these publishers are staffed with .com employees who are referred to as "editors;" but, the title seems to bare little resemblance to real-world editors. (I believe that the majority of "excellent" reviews of .com books are written by these editors--they must have to do SOMETHING--and the books that are published are certainly not being edited.)This book,"Predatory Kill," is an example of no-to-low standards for book publishing. If the purpose was to produce a sample case for law

students to review and determine if all the steps necessary to present and plead this case, then maybe...just maybe, it has some value. If you read courtroom novels for the excitement, the intelligent ideas, the how-did-he-ever-come-up with THAT idea; you'll never find that in this book nor, I doubt, in any other book from this author. His characters are flat: Brent Marks is seemingly void any human emotion: his mourning for his friend is superficial at best, his "attraction" to Angela is wooden--almost non-existent. The line, "they kiss." is as exciting as this author gets! Any one who compares this author to John Gisham is clueless as to what makes a great courtroom drama.
