Customer Reviews

From pretty much the beginning I started to like this book seeing the honesty of the writer and I felt that it's not just like any other book giving tricks or ways to fool women but some real quality advice to attract young women. He in the start explains this, that what this book is all about and what it's not about. How he started telling all about younger women he dated, how awesome it would be to have a woman of 20's, I found myself irresistible to know how he or I could achieve this someday. Well his advice were perfectly brilliant and I followed many if not all, and it worked for me. I did not get as much as women that Keyvan dated but the way I was earlier with all broken relationships, it was just fine or perfect for me. The girl is not essential to be on the path of yours, keep the relationship discreet and do not try to show off, go with the flow, accept them for what they are and enjoy the moment. Get snapchat, instagram ,apps that I thought was nonsense really helped me a lot. I was all ready to face this young generation. Don't try to act like a younger guy or do things that

younger men do, a thing that I tried to do a lot before reading this amazing book. And it's not just about advice too. There are examples and stories to make us realize the importance of doing something or refraining from doing something. He encourages us a lot and make us face the situation well. Thanks for all this Keyvan.

This book is a must-read for anyone interested in--or already--dating someone that is quite a bit younger than you are. It takes you through the whole process, from finding the right person to navigating seamlessly through any and all age-related obstacles that may arise. Keyvan does a great job of keeping it relatable and fun to read!
