Customer Reviews

I really enjoy reading this! This is a great set of Sci-Fi romance, i still have not came to the end, but every night I read a few pages. Exciting hot story, with sudden twists, really hold attention and make reading breathless. I recommend this set to everyone who love Sci-Fi romance..

It was an interesting but short read. The story lies within your deepest fantasies and triggers all your heartstrings to dance your way into an intergalactic, out of this world romance you've never imagined experiencing before!

I loved the world building! A techno-organic world with a different culture had some ideas I'd never read before. The romance is delicious. I will read more of this author!! did enjoy this book. Rae has wit and sass in equal amounts and isn't the kind of girl who just folds, which I can definitely appreciate. Garr was surprisingly well rounded in a world were the hot alien hunk is a dime a dozen.

I have read the a few books of this series and all I can say is it is very good. I loved how the story revolves on the romance between the characters. I personally loved it because it has a touch of science into it and romance. It is very entertaining and you will not notice the time when you read it because it will get your attention.

I really enjoy the love stories. I enjoy the Alien and how they aren't sure of the "protocol" of earth, plus they are down right sexy and hot! what kept me locked in to the pages were its entertaining details of the settings and events. It is really enjoyable and a quick read.

However, many classic science fiction books have strong romance to a far away world where aliens use humans for sport and entertainment, chapter 10 Every passing second since I got back to the cavin, I've been waiting for something unbelievably bad to happen, through I can only speculate as to what that might be.

This book really made my day. I so love how the author put twists on the story. Simple however the scenes are unusual thus gives the reader so much excitement to finish reading the whole story. A book that made me a page turner.

I had a great time reading this series. The plot was well written and really made me engrossed in it. This author is definitely one of my favorites when it comes to romance because of her excellent writing skills. The steamy scenes were totally hot and exciting which made me awakened my naughty and imaginative mind. Well, this is certainly a great addition to my collection and would very much like to reread it again sometime.
