Customer Reviews

Are you kidding me? I just paid \$150 for the kid's kindle and there's not even a help icon on the kindle or a free manual to go with it? I have to BUY one? The reviews I'm reading are telling me the \$3 manual is basically useless.

No information in this book about the kids edition more than a mention. Pretty useless information that you could just google.

I love these. The two year guarantee is a wonderful aspect. I bought 3 for my great grand sons. They had Nabis before this and with normal play the screens cracked. The parental control is easy to use. My only complaint is I had to pay for a manual. Loads of apps, videos and music for kids.

I found this book to be less than helpful. There were no real tricks or tips. Just a basic walk-through. Would not recommend it.
