## Customer Reviews

I read in this author's bio that she never intended to write. She should have stuck to her original plan. The character development is non-existent, there is NO storyline and the choppy, stilted writing style is way too painful to try and finish. There are every few books I don't finish, but I have never been able to finish one of Ms. Collins' attempts. Won't try again.

This is a tale about adoration amongst Jessie and a very extremely rich person. While

understanding this story I could find in my creative ability a mental motion picture about what happened with the characters and felt that I was amidst the scene. This story is connecting with and I loved particularly that while understanding it I could feel feelings of the characters myself. Extraordinary book.

This is a story about love between Jessie and a your billionaire. While reading this story I could see in my imagination a mental movie about what happened with the characters and felt that I was in the middle of the scene. This story is engaging and I liked especially that while reading it I could feel emotions of the characters myself. Great book.

This series is first on my reading list! The entire story is just effortlessly brilliant. I love all the details and I could absolutely say that this box set has everything you could ask for. I never mind spending money with this because practically saying, it is all worth it. I could never get enough with this series. It gives me the best reading experience. Really exciting!

This is a good set for spicing up the love life. Hot, steamy scenes and good character development. Witty dialogue, too, which is a plus. I knocked off a star for editing mistakes, but these books were well crafted otherwise. The wife and I thoroughly enjoyed this set. I'll be looking for more from this author.

The Life encounters that Jessie goes through and making her become the Bartender where Ethan the Billionaire catches up with her, makes Ghent whole story change in her life, the 2 take on the opportunities to know each other and becoming the close and tight lovers, as expressed in this 5 book mini-serie.

I really enjoyed reading this book. The story has an excellent action, beautifully written and is difficult to be released from his hands. The story is not too long, and it can be read in a few days. I would recommend to anyone who likes love romance

Interesting stories that will seem like a completely real. Anna Collins is an excellent writer who knows how to portray events as though you are watching live. The story is full of excitement, eroticism and emotion. I really enjoyed!
