Customer Reviews

This nutshell is a consistent representation of the other tax nutshell references. It is organized well and contains everything you need to know about taxation of an S Corporation. There could be more strategic planning tips with S Corporations to make the book even better, but it is very useful as it stands. Great reference tool for your library.

This book will continue to help me as I plan my purchases towards S-Corp taxes.

Very detailed and helpful

I got this book hoping to understand the ins and outs of taxes as they relate to an S corporation. Unfortunately, this book added nothing to my knowledge. It talks more about the history of the tax code and never really gets into how to manage things to minimize taxes.
