## Customer Reviews

The book smells so bad that I became sick from it. I began using the book once school started so it was past the 15 day return policy. Thankfully another class mate had another book so I've been using theirs. The book is very redundant and you are left more confused after the readings. This is sad due to the fact that the topic is very interesting and covers important topics. I will not be renting a book from this company again due to the strong smell. The book was in good shape but the mold makes it unacceptable.

Community Health did meet my expectation. Thanks.
