# Spinning Wind And Water: Hurricanes (Bel The Weather Girl)

## Synopsis

Yikes! Grandpa tells Dylan and Bel the Weather Girl that he is tracking a tropical storm. They came to Florida for fun in the sun, not to get stuck in a hurricane! Bel explains the science behind the storm. Are the weekend plans ruined? Stay tuned, because every day is another weather day!

## Customer Reviews

Belinda Jensen creatively connected a Midwest family with relatives in Florida to experience tropical weather situations and continue the education of Mother Nature. Entertaining and educational and perfect for family ready time as well as elementary science curriculum. Nice job!

This series of books is fantastic! So many kids (and many adults) are anxious about the weather, understanding the weather helps make it less scary. These books are great to read with your kids, make great gifts and are a must have for any school or community library. The author thought of everything, at end of the book there are experiments you can do at home or in class, a glossary, and even recommend books and websites for further reading.

Exceeded all expectations! Love the story with a teaching moment. I learned something and thought it was just for the little ones. My favorite new gift! May even want to go and buy a Stormy dog ;)
