[New Age & Spirituality > Divination > Tarot](#) #220 in [Books > Children's Books](#)

Customer Reviews

Things that deeply touch people are the things that survive the test of time and are well known. The Mona Lisa, for example, is considered a pivotal piece of art and is universally recognized, even though there are thousands of portraits that are both more realistic and completely finished. Somehow, this piece resonates with people in some way so that its appeal and visceral attraction never fades. The same is true of the Rider Deck. As noted in other reviews, there are quite literally hundreds of decks ranging from everything from baseball to vampires to dragons to unicorns. Many people collect Tarot cards, but most everyone starts here with the Rider Deck. Indeed, of the hundreds of books published on the Tarot, almost every book I've seen for the beginner to the advanced uses the Rider deck as an example. Most decks are based in the symbolism of the Rider deck as well and if they don't work as well, it's because they've glossed over the symbolism so pivotal in the Rider. Why, then has the Rider not only survived but evolved to be an archetype of the tarot itself? I think because it speaks to us and it's the easiest to understand even at a quick glance. The symbolism is so strong that the beginner can easily remember what any given card represents (no mean feat when there are 72 cards to remember and read!) The symbolism is also so detailed and deep that the advanced caster is always able to find deeper meaning, make more and more connections between cards during a casting. Drawn almost like an illuminated manuscript in solid

colors with clear, black outlines before the age of airbrush or computer 3D rendering, there is something timeless about it that connects us to its rich and deep history.
