DELORME State Topographic Atlas And Gazetteer, New Hampshire/Vermont

Customer Reviews

Does not have the same level of detail as the rest of my Delorme Gazetteers have. May as well buy a Rand-McNalley map & save \$20. This has no more detail than a regular roadmap. My family has been buying Delorme Gazetteers since the 80's. We have all the NewEngland states. All of them have notes in the page margins, particularly ME & NY. Now I have to hope they will print more of the VT issue as I already had a NH and NEEDED a VT map

I am really disappointed in this new version that combines NH and Vermont. the old version of just NH had 35 maps just to cover NH. this new version is useless for hunters and hikers who valued the topographic detail. if I want a roadmap I use a GPS. I don't think your traditional customers will like this, I know I don't.

I've been using this product for decades and find the current edition to be greatly improved. It is more readable, the topography is better delineated, and more roads are actually named (but not all). Well worth the price!

Nice atlas. I'd been waiting for this since they discontinued the stand alone NH atlas. Nice features and details. Easy to read and use. I pulled the staples and cut out the pages (and cover) I didn't need to save space and fit it in a smaller location.

I got this Delorme atlas and gazetteer primarily for Vermont, since I already had one that covered New Hampshire alone. This proved invaluable. Vermont is hilly to mountainous throughout. And it was helpful having a topographical map that showed the terrain, which proved useful both for driving and hiking. Plus, because of this gazetteer I was able to discover hiking trails, as well as backroads that gave access to otherwise out-of-the-way ponds and streams, which added to my experience of an already beautiful state. This is a great atlas to take along for anyone wanting to do serious exploration of Vermont.

excellent service and price. This is my staple map. I only wish this was available in a smaller format
Delorme New Hampshire Vermont Atlas & Gazetteer (Delorme Atlas & Gazetteer)

I love my GPS, but also like to have a "real" map in the car. The bonus is having the campgrounds etc. clearly marked. Great price on .

I own many of these for different states and they are great for planning trips and having in your car while traveling.
