Synopsis

Version 2 with discussion of the new Kindle Unlimited (KU2.0) payout is now complete! If does not push this to your Kindle/app, contact support and request the push. This book is the book I wish I had read when I first started on this path to make money writing erotica. So much of the information out there on writing erotica for money is fantastic. You can't go wrong with studying up on how all the top writers are doing it. You can pick up any book on how to write sexy erotica. There are scads of books and blogs on how to format, create covers, craft blurbs. The only thing is that many of the books fall short of critical key areas. It's like many are afraid to tell you their erotic trade secrets. So many of the fundamental things you need to know to figure out what to write, how to keyword it and what to do to avoid the dreaded dungeon, get left out. Sure, a lot of it changes quite often. Nothing is static for long in this business. But it's not the specifics that are key. It's in how to find that information out, how to analyze it and how to put it to work for you. How many show you how to find the top sellers? How many give you the tricks and tips to find what keywords work? That's what this book tells you, along with some pretty hard kicks in the booty to get you started. It's not going to blow smoke in your face. It's going to tell you how to get it done.

Customer Reviews

Clear, concise, and to the point. I enjoyed the straightforwardness of the author. All of the need-to-know information is one place and while yes you can find all of the contents on the internet, I like having it all together.

If you're interested in self-publishing erotica, you've hopefully been doing your homework and scouring the online forums, how-to books, and any scraps of advice you can get your smutty hands on. This was certainly me a little less than a month ago--a rough time, as the community was in a state of heavy transition to KU2.0. There are many how-to books on the subject on , yet all of them were for a now defunct system. unsilenced was the first author I found who was quick on the uptake to revise and give the best, most current advice right when it was needed. While the rest of the No Bullsh*t series I found to be maybe too specific/not relevant to me/not as helpful, this first one? Excellent. Solid, broad advice, with a helpful amount of resources and ways to continue your erotica indie writer training. Maybe the best recommendation is just to say I'm at this moment published on and hitting the ground running. Caps off to you, unsilenced.

Nothing in here you can't learn on line. Though it will make the process faster. This is for people wanting to pump out 5-7k shorts, trying to make a quick buck.

Very good book on the mechanics of self publishing erotica on . Especially helpful on tags, blurbs, and other self publishing sites besides .
