# 100 Days Of Cool (MathStart 2)

## Synopsis

Stuart J. Murphy travels all over the United States talking to thousands of kids. And you'll never believe what they talk about: MATH! Stuart shows kids that they use math every day -- to share a pizza, spend their allowance, and even sort socks. Stuart writes funny stories about math -- and if you read his books, you'll start to see the fun in math, too. Most classrooms celebrate 100 days of school. But for Mrs. Lopez's class, it's 100 days of cool! Something new and cool is bound to happen every day, all the way from 1 to 100.

## Book Information

Series: MathStart 2

Paperback: 40 pages

Publisher: HarperCollins (December 23, 2003)

Language: English

ISBN-10: 0060001232

ISBN-13: 978-0060001230

Product Dimensions: 10 x 8 inches

Shipping Weight: 5.6 ounces (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars [See all reviews](#) (4 customer reviews)

Age Range: 6 - 10 years

Grade Level: 1 and up

## Customer Reviews

I love this book as it gives a different spin on the 100th day of school. As an educator, I am always looking for things that fit the curriculum but are of interest to the learners. There are many follow-through activities to do after reading this.

This book is awful. It has a terrible flow. The idea that students would be so creative on their own is extremely far fetched. Basically, the kids celebrate various days of school in preparation for the 100th day of school. I found it to be totally unrealistic.

The book was entertaining for my students. It was different than the normal 100 day book. I would recommend this to other classrooms as a great read aloud.

I am happy with my purchase. I would buy from seller again.
