Common Core Science 4 Today, Grade 4: Daily Skill Practice (Common Core 4 Today)

Synopsis

Common Core Science 4 Today: Daily Skill Practice provides the perfect standards-based activities for each day of the week. Reinforce science topics and the math and language arts Common Core State Standards all year long in only 10 minutes a day! Weeks are separated by science topic so they may be completed in the order that best complements your science curriculum. Review essential skills during a four-day period and assess on the fifth day for easy progress monitoring. Common Core Science 4 Today series for kindergarten through fifth grade covers 40 weeks of science topics with engaging, cross-curricular activities. Common Core Science 4 Today includes a Common Core Standards Alignment Matrix, and shows the standards covered on the assessment for the week for easy planning and documentation. Common Core Science 4 Today will make integrating science practice into daily classroom instruction a breeze!

Book Information

Series: Common Core 4 Today

Paperback: 96 pages

Publisher: Carson-Dellosa Publishing; Act Csm edition (May 15, 2014)

Language: English

ISBN-10: 1483811271

ISBN-13: 978-1483811277

Product Dimensions: 8.4 x 0.2 x 10.9 inches

Shipping Weight: 7.2 ounces (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars [See all reviews](#) (25 customer reviews)

Best Sellers Rank: #32,254 in Books (See Top 100 in Books) #31 in [Books > Education & Teaching > Schools & Teaching > Instruction Methods > Science & Technology](#) #48 in [Books > Education & Teaching > Schools & Teaching > Common Core](#) #104 in [Books > Education & Teaching > Schools & Teaching > Curriculum & Lesson Plans](#)

Age Range: 9 and up

Grade Level: 4 and up

Customer Reviews

The only problem I have with this is that it requires you to already know the terms or to look into other sources to learn about the subjects. Now, that's not a bad thing, but when you are pressed for time, it's not easy to fit in a lesson you have to look up and teach with the workbook. We are saving this for 4th grade but will start some in the summer when we can get the time. Science, in my

opinion, is the most important subject.

It's a fantastic idea, but WAAAY to hard for my 4th graders. I was hoping to use it as a "one a day" type review, but the questions are so difficult I won't be able to do that. Instead, I arranged the pages to coincide with my lessons on each topic; So when I teach fossils, I'll use the fossil pages to go along with it. The topics in the book follow the Michigan GLCEs for Science very well, but they are not a review of topics, like I'd hoped.

Why not add one article including terms and examples in front of every week's work. If you already know, it can be a review or just skip the article. If you don't know the terms, it will be an perfect independent book to self-study. Lots of books have terms, formulas and examples in front of exercises, they can help us more than exercises only.

As a homeschooling mother, I am always looking for items to supplement my lesson plans. I came across the Common Core books and fell in love! This Science book is awesome and it made homeschooling much easier!

No lessons to teach with. You have to find the reading articles but then it doesn't match their quizzes.

This is a great daily science book if you don't have a good science program at your school. For some topics you have to supplement to help students understand concept.,

Very difficult to use. There is no study guide available. It took me about an hour each chapter to tailor a study guide.

Love this it helps me get the point across to my child, and he enjoys it. It is a good book and covers everything.
