Black Magic Spells: Black Magic Spells For Beginners (Black Magick)

Synopsis

Black Magic? You may ask, "What the hell is Black Magic?"™. There are many theories and debates revolving around Black Magic and how exactly is it different than White Magic, or any other types or colors of magic. In simple terms, all magic is the same, magic has no color, but the movies, tv shows, media, news channels, magazines, video games have built a big hype around the word "Magic"™. The media has often portrayed "Black Magic"™ as evil, "White Magic"™ as pure, "Red"™ is often shown as "Love Magic"™, "Green"™ as wealth, prosperity or money. Dividing magic into different colors serves no real purpose, perhaps, you can color your favorite spells in different colors, using red to color love spells, green to color money spells, but in reality this division of color is non-existent. The effect of a spell depends on how much energy you have dedicated into casting it, how effectively and efficiently you have cast your spell and whether you have used the right words and procedures to cast it. Anything that tries to manipulate free will and coerces a person to do things against his wishes is called "Black magic"™. Please be careful while casting these spells, trying to influence other's decisions can have severe consequences. You need to be sure about your reasons for casting that spell, also follow the exact process that's mentioned in this book, don't improvise, or else it might backfire. Free will is one of the strongest forces of nature, so be careful when you are practicing this "Dark Art"™. Bon Voyage!

Customer Reviews

This book literally gives me a chill. The book is very interesting but quite short. It is all about curses with complete materials to use and procedures to follow. One spell I particularly like is Give Up Smoking spells. Other spells in this book are dangerous, these are good to know spells but be cautious about it. It is up to you if you are going to believe in it but I suggest not to use it to harm anyone or anybody. I like that the author is very open in sharing what she knows about Black Magic.

Spells is an integral part of the ceremonies; magical phrase, accompanying every ritual. It's not just words, they activate different processes in our world. Honestly, the book is written not bad. Perhaps it will be of interest to others. But I am not a supporter of magic.

I didn't know quite what to expect when I purchased this book but am so glad I did! It's unlike magic books that I've seen as it's actually easy to follow and understand. There are no exotic or weird ingredients for spells required and they are mostly super simple to follow. Really great book for those interested in black magic, highly recommended.
