## Customer Reviews

As an Interior Decorator who is really just starting out in this career field, I found window treatments to be my biggest challenge. There is nothing difficult about choosing great drapes, but I know from experience that window treatments can be true problem-solvers too, and I wanted to master the ability to match a great look with a great solution. This book offers ideas for filtering light to reduce a harsh afternoon glare, as well as how to combine modern window dressings with more traditional furniture settings. There are plenty of pictures, and I especially like the sections on various types of hardware and problem windows. There are plenty of books and magazines that inspire with beautiful photos but as a decorator, I do have my own inspirations for the look I want to achieve.

What I needed was a practical guide that taught me all the basic options so I can now turn my ideas into practical window solutions that are also beautiful. This book is it!

Really great editon for window decorating providing you with plenty of photos, pictures and guides to change something in your apartment
