Shipping Weight: 1.8 pounds (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (8 customer reviews)

Best Sellers Rank: #304,372 in Books (See Top 100 in Books) #40 in [Books > Computers & Technology > Programming > Languages & Tools > CSS](#) #518 in [Books > Computers & Technology > Web Development & Design > Web Design](#) #822 in [Books > Computers & Technology > Programming > Web Programming](#)

Customer Reviews

Textbooks always get priced way out of proportion to what other books cost. Sadly even my Cisco textbooks are cheaper than this (and they are quite a bit bigger...). Book subject matter and presentation is good.

It was required book for my Beginning Web Page Programming class and it has been very useful when I have an assignment that I don't quite understand at first.

Granted I use this book for college courses but this book is also great for teaching yourself at home how to create web pg's w/o software.!

the book was bran new. very nice, good color and very good info. Price is ok. I wish it wasn't so expensive
