Excellent book, I was looking for a complete book about bread. I like bread and I feel nowadays the bread outside my house is terrible, elastic, expensive without soul. I'd been reading a lot of books from other bread teachers but they are many of them, full of recipes, I asked myself; Why do I need recipes when I don't even know how Fermentation works? Ivan gives a full chapter about this important topic, the key for a good loaf of bread. Fully recommended for the home baker....

This is an excellent book, beautiful book. Instructions are clear and easy to follow. The best book of its kind.

Great book, good recipes; simple and complex just what I expected. The basics for home bread explain in a simple and clear way.

My wife loves this book, sadly there's no kindle version in America.

Great book
