Me & The Other Women: Stories Of Female Relationships That Shape Our Lives

Synopsis

Business books talk about building relationships but they rarely talk about how a relationship builds you. Finding information on how to build relationships is easy. There are hundreds, if not thousands, of blogs, books, seminars, and coaching companies all vying for your attention. There are a good number of ideas, I have used many of them myself, and so have you. This book will touch on those ideas, but it will also go further. This book is not just about building relationships but more importantly, it is about how relationships build you. Each and every person who comes into your life can help you become a better person. You can also be a part of helping them for their highest potential. Cultivating relationships makes our lives richer. We learn and grow, in our personal life, in our business life, or even as we move to new communities. We are all part of a collective whole and everyone we encounter can change our lives in some way. These stories can help you to find out about those changes within you and help you find the ones to embrace for your highest potential.
