Customer Reviews

This book provides you with the nuts and bolts of the Spanish grammar. It is a must-read for anyone at an advanced level of Spanish. The book teaches how to avoid some common as well as more complex grammatical errors, accentuation rules, punctuation, use and misuse of terms, etc. Again, this book is not designed for the beginning learner, since it assumes the reader already has advanced command of the language. It is more geared for those who want to perfect their writing technique and be able to write at an academic level. It is an excellent reference and I highly recommend it.
