Customer Reviews

This box set is really amazing. Any one of these books would be a great deal on their own.

However, when you combine them together, this is an outright steal! Eric does a fantastic job of putting together a huge collection of delicious recipes. They aren't hard at all to make and his instructions are easy to follow. I personally love pressure cookers and my favorites from the books include spicy ribs and even salmon steaks. The book on dump dinners is wonderful for really saving time and eating healthy. The hardest part is knowing which of the many recipes to start with. This was a real home run for cookbooks. With this one, you don't need any more cook books!

This is the perfect product for the modern person on the go. Not many people have the time to cook full delicious meals with their schedules, but with this they are able to do it in much less time! I used work 9 hours a day, go to the gym, cook, and try to spend some time unwinding or talking with

friends before bed. That caused me to be constantly going to bed late and getting little sleep. Then, I found this book, bought a pressure cooker, and my meals have been more tasty and in half the time! I've been able to go to bed early and have more energy. There are so many delicious recipes I never get bored! Plus, the ladies love a man who can cook!

As a homemaker I always need new recipes for me to serve for my family that will not also take most of time preparing. When I found these books, it got me so excited because I have plenty of recipes to choose from to cook for my family. These recipes are also great for those who live on their own and are always busy.

I was looking more for pressure cooker/dump dinners that were closer to comfort foods. This has things that I'll never make for my family like Egg Corn Soup, Eggplant Fiesta, Kale Chips (who needs a recipe for that? you just bake them), Crispy Polenta Wedges with Tomato Tampanade and so on. Sure, maybe if I'm entertaining, but not for regular meals. I'm quite surprised at the reviews and very disappointed in the book set. This is more for the creative chef, which isn't me. I just want plain easy recipes. This doesn't have that.

I absolutely love this box set since it consists of the various recipe books that uses a pressure cooker which I really enjoyed using. From dump dinners to spiralized cooking recipes, this set has them. With this, I'll be able to prepare lots of dishes which me and my loved ones would definitely enjoy. This is truly a great box set that I'm going to keep in my library for a very, very long time. And with that being said, I highly recommend this to others who loves eating a home cooked meal even when busy.

Keep Looking - No original ideas, poor quality, no pictures, nothing to get excited about.

Wow! I'm not a very good cook but this book made my life easier and my family happier.

I don't really like paperback books but it did have some good ideas.
