Archetypes Of The Zodiac (Llewellyn Modern Astrology Library)

Synopsis

Take a deeper look at astrology as it relates to Jungian Archetypes. By understanding myths and archetypes, you can attain the potential of your birth chart • your life map • and gain conscious control of the instincts that rule you. You can change the instinctual patterns that seem to have you locked in, and become healthier and more productive. Archetypes of the Zodiac explains the archetypal journeys of each sign: Aries' search for a separate identity, Taurus' quest for value and meaning, Gemini's search for variety. The technique in this book is based on the integration of the esoteric rules of the signs with their opposites. This technique helps you understand your instinctual behavior, enhance your creativity, and modify the negative energies in your horoscope. Anyone studying astrology and archetypes • counselors, professional astrologers and even novices • can benefit from this information. You can bring out the higher octave of your sign and manifest it in your life • and learn to help others do the same.

Customer Reviews

I was very impressed by the depth of information this book provided. At times I felt almost overwhelmed because I thought there couldn't possibly be anymore to the mythology of this sign, and sure enough, there was! An unqualified yes to get this book for anyone seriously interested in Astrology, Mythology, or even Wholistic Psychology.

Burt has done a masterful job writing about astrology from a mythical and Jungian perspective. She truly understands the signs of the zodiac and the issues they represent in our lives. Her comments on the natal sun progressing during the life cycle are especially illuminating. To my mind, this book is one of the classic texts of modern astrology. I return to it repeatedly for fresh insights about the celestial craft. It is, hands down, the most influential astrology text I have read in the past decade. Burt's volume ranks with Bob Hand's "Planets in Transit" as a treasured astrological resource. It deserves 6 stars.

I'm a professional Astrologer and have been teaching classes since 1978. I frequently recommend this book to my more advanced students who really want to learn about the deeper archetypal patterns in psychological astrology. A GREAT book!

I loved this book and learned a lot from it. There is so much here that you won't get from an ordinary astrology book. The most interesting part of astrology (in my opinion), is its connection to mythology and how the various archetypal energies in astrology relate. Fun for anyone who enjoys depth psychology, even if astrology isn't a major interest. For anyone interested in astrology, it's an absolute must.

This book, I think, takes Jung's definition of the Archetypes and brings them out into the open so that we can all understand them at all levels. The art work is also awesome and gives that little extra something to the presentation of the work bringing it into perspective.

This book is fabulous. I love reading about astrology and this book is ideal to get a novice astrologer up to an intermediate. Well, it opens the door anyhow. I failed math and despite the scientific bent astrology has, I've pushed myself through chart interpretation hoping someday it will all come together. This book can certainly help to solidify one's knowledge base, as well and widen it. Plus if you like any of Joseph Campbell's stuff, this combines astrology and mythology and where can you possibly go wrong with that?

ARCHETYPES is a must-read for anyone interested in Astrology. It is the BEST book of its kind - actually a classic. Combining deep psychological truths with spirituality, the astrology is woven into a beautiful context. Easy to follow. You'll look up the charts of everyone you know! I did!! Thanks Kathleen.

How does the symbolism of mythology affect how we read charts for others? This book uncovers the twelve astrological types of individuals and their background in mythology. A great book if you want to thoroughly understand each sign.
