Nightmares In The Saudi Arabian Desert: Autobiography (The Saudi Nightmare Trilogy Book 1)

Synopsis

New Edited Version This is my self-written autobiography, my true story, starting out as a young educated cosmopolitan woman from Athens Greece when life was opening up before me, full of promise. With dreams of living in Paris, the City of Light that I loved so much. However, love beckoned me in the form of a charming Arab with promises of paradise and I decided to leave everything behind, including my dreams. However, my marriage to a handsome important Saudi will become my prison from which escape seems impossible. Will she make it? Will she manage to escape the nightmare and reclaim her right to life? JUST RELEASED: "Merciless Struggle", book two of the "Nightmares" Trilogy. Available now on .

Customer Reviews

If you ask me, the real "nightmare" was trying to read this doggone book without wanting to throw the Kindle across the room! The only saving grace of this book? It wasn't too expensive. If I had paid more than \$10 for this insipid tripe, then I really would be angry for having my money and time wasted. Now, I won't sugar coat the truth here. This book sucks! When it comes to slipshod work, this book is probably one of the worst books I have ever read. Seriously, my 8 year old grandson could've written a more interesting and better quality book. This book is riddled with grammatical errors and misspelled words. It was very distracting to the point to where it renders the book

unreadable. Ok, so English isn't the author's first language, but for goodness sake, hire a decent interpreter and then hire a proofreader to proofread the work BEFORE publication. Don't rely on spell check. No excuses. In terms of actual content, it's pretty lame and self-indulgent. I get it that autobiographies/memoirs are about the person, but even then one should avoid devolving into self-pity when writing. It's just pathetic. It's obvious that the author wrote this book because she is desperate for sympathy, money or both. Quite frankly, I found her relentless 'victim' stance annoying. She overdoes it on the hyperbole, and as a result she is unconvincing. She didn't move me to feel the least bit sorry for her. Sure, the husband sounds like he was a violent narcissistic 'mama's boy', and the cliquish family does sound like they had it out for her, but to me the author was just straight up stupid. Anyone with half a brain knows that in Saudi Arabia, women have absolutely no rights at all. Why can't she take some personal responsibility for her choices?
