Customer Reviews

I became interested with Minecraft because it allows you to be creative and make your own adventures. Its not just a kids game for me, as some are led to believe. I actually know the basics of

Minecraft but I wanted to know more about secrets and how I can enhance my Minecraft gaming time, so I got this book. And it did give me tips and hints and I can now play Minecraft in a new light.

At first I didn't know how Minecraft is done, with after reading this book, now I can say that I truly understand it. The book is so helpful for beginners and for those who are already playing the game many times now. The tricks are indeed very useful and so fun! Nice book!

It could be better .I would recommend it to mining and enchanting .It's good but the writer could update to 1.9

It was good but not enough chapters you should get it if you need more information about Minecraft. get it
