Customer Reviews

The seller advertised the book as like new and without marking inside... Like new fit well because it looks like his/her dog bit off a corner of the covr. Also inside EVERY chapter had numerous sections highlighted. ALTHOUGH, the book didn't match the description; the highlighting was helpful and for less than \$2.00 to purchase I can deal with a corner missing from the cover. Therefore, I gave a rating of 4 out of 5 stars because the book was not exactly as described. BUT, the highlighting was helpful and i couldn't beat the price with a stick. Also, the book arrived promptly and exactly when I was told it would. Maybe Im being a little critical of the seller's description but I am being honest.

This is a very good, explanatory book about the corporate structure and will be helpful in my class this summer.

The textbook condition was described as being very good. I am very pleased with its condition, especially since the book has the CD in the back.

beware this is the much earlier third edition and the laws have changed a lot. I recommend buying the most current book.

This book was required for my online ethic's class. It arrived fast. It has a nice layout and easy to follow.

I have read the first 5 chapters. Full of useful information Will be helpful in my future career. great book
