Customer Reviews

This book is an interesting look at the nuclear testing the U.S. did in the Pacific Islands. It is a great book when you must write a paper on the subject, because of its understandability. I would recommend that anybody who wants to know about the horrors that the Islanders went through during the testing and the aftermath of testing should take a look at this book.

I read this book several years ago. Excellent, but extremely thought provoking. Be warned, it is very upfront and to the point, in regards to what the U.S. government did to the people in the Marshall Islands.

The native population on Rongelap were in close proximity and downwind of a 15-megaton H-bomb test. Jane Dibblin provides an investigative reporter's account of the devastating impact on the islanders.
