# Cactus - Botany And Growing

## Synopsis

Cactus plants have intrigued mankind due to their great capacity to survive in harsh environments, their usefulness and, also their exotic beauty. In response to an increased demand for knowledge about these plants, this book presents practical information on growing cacti successfully. This work, richly illustrated with drawings and pictures, is a key tool for those who seek references on the cultivation and botany of Cactaceae, keeping in mind that publications on this subject are very rare.

## Book Information

## Customer Reviews

This book is a great basic info for VFT. This should be given to anyone getting a VFT plant to make caring for them go smoothly.

A really helpful book. I learned a lot.
