# Psychic: Understanding Clairvoyance And Auras

## Synopsis

Most clairvoyants show their potential at its peak when they are children but they don't understand what it is. They are confused by it knowing something bad is going to happen and it can be scary for a young child. So they repress their intuition to stop themselves from seeing the bad things. But now that we are older we can handle those visions better. But now we need to get rid of the mental block we put up as children, and with these simple practices we can begin to visualize using meditation and other techniques.

## Customer Reviews

This book was clear and helpful in showing me how to move my own energy. I especially like the emphasis on being in an earthly body, even though we are spiritual. A great beginner's guide! Easy to understand.
