Customer Reviews

The book came within a reasonable time frame also its stained and has a lot of wear and tear but for the price I can live with it. I would give it three stars if the book was in better shape. I guess you get what you pay for in this case!

Things just don't get much more exciting than selected commercial statutes and the U.C.C.!! This book's a real page turner, especially if your professor teaches kind of fast. The book is very sturdy, so after your done reading it, it makes a good door stop!

Recvd the book timely but a lot of the pages were bent. These books were in such demand at the time that the prices jumped ridiculously high. It was good enough for me to do what I needed to do. If I re-sell it I will sell it at a reasonable price due to all the markups and bent pages.

The newest amendments are in the back, so they are hard to line up, and some are inaccurate. You probably want to buy the most current version if you're relying on it in practice.
