A Legal Guide For Student Affairs Professionals: (Updated And Adapted From The Law Of Higher Education, 4th Edition)

Synopsis

The student affairs market has experienced a great boom in the last decade. Based on the fourth edition of the indispensable guide to the laws that bear on the conduct of higher education, this updated student affairs edition provides a reference and guide for student affairs practitioners and graduate students in student affairs administration courses. This volume combines sections that are pertinent to student affairs practitioners, as well as the government regulatory and administrative issues found in the full Fourth Edition. It is thus the most comprehensive and easy-to-use volume for student affairs officers and students.

Customer Reviews

I had to read this book for one of my grad classes. It is huge first of all, but on top of that sometimes it can be pretty dry. I am sure they weren't trying to write a thriller here but I think in some areas it could have been written a little more accessibly considering the people reading it aren't law students and I think it could have been a little more lively. I did appreciate the examples in the book though and thought they helped apply the material.

Item came in perfect condition and exactly as described. This book was purchased for a graduate level education class and served very well as a reference for the class. As with most legal books don't expect it to be a exciting read especially if you are in the education field.

The topics of this book are set in an orderly fashion, however the topics are over my head. The

writing style is very dense. The authors do a good job at mixing cases with knowledge. I would like a stronger focus on Student Affairs.

I purchased this book for my Legal Issues in Higher Education class. The book arrived quickly and in good condition. As a graduate student, I found the book hard to understand, as the book was littered with legal terms and cited cases I had no knowledge of. However, it will be a good resource in the future.
