Caregiver/Caretaker: A Book About Exploitation Of The Elderly

Synopsis

The day that Charles Glass died, his brother's oldest son, Norman, bragged to his wife, "I drove straight to his bank and had his checking account cleaned out before they even knew he was dead". Six days before Ellen Glass died, her oldest child, Norman, left the hospital and drove straight to her bank where he emptied out the last \$14,865 in her checking account. Norman was on both accounts as "Joint Tenant". Exploitation of the elderly through undue influence is most often perpetrated by a trusted family member; the loss often discovered several years after the event, or after the victim's demise. CAREGIVER/CARETAKER is a story of such loss, both material and familial, exposing the hidden shame of a • today • filled with the survivors of • yesterday •. Do not let this happen to you and yours. Included is an all-encompassing primer on the subject.

Customer Reviews

I have just finished the book, CAREGIVER/CARETAKER, by J. David Jaax. This is a must read book about the exploitation of the elderly. The story unfolds like a well-written movie. In fact, this book should be a movie. Everyone should see how the subtle actions of a narcissistic family member can pull the wool over everyone's eyes until they get what they want or have the grandiose belief they are entitled to having. In this book, Norman, one of the ladies son's, weaves his way into his mother's life, to the point she only trusts him and not her other children. He starts by doing so much for her she becomes dependent on him, and the rest of the family is grateful for the care he is giving their mother. Then he begins to twist things in his mother's mind. To the point, she does not know how to believe in her own decisions anymore and won't do anything without Norman's stamp of approval. As he continues to worm his way into her life, he finally gets what

he wants. His name on her bank account. In the end, when he had manipulated everything to come to him, he even figures out how to cause her death, without a trace of suspicion coming back to him. As a person who works with elderly, this book opened my eyes to things to watch out for to protect the senior citizen and the rest of his or her family from a family member with motives of only fattening their own wallet.

This book is about my mother. Contents you will find both shocking and appalling. A trusted oldest brother turned greedy and evil, to live his life out disowned by his siblings
