Basic Contract Law (American Casebooks) (American Casebook Series)

Synopsis

The Eighth Edition continues the approach of earlier editions in emphasizing rich, full-bodied versions of the principal cases, and a functionalist approach to the problems of contract law. The new edition includes a great number of new principal cases and case notes, as well as longer, analytical notes on such issues as the differences between classical and modern contract law, the role of the limits of cognition in contract law, and the role of probability in measuring uncertain contract damages. The emphasis of previous editions on international contract law continues in this new edition.

Customer Reviews

Two main issues with this casebook: 1. A lot of new cases got added to the newer Ninth edition. Some of those cases are hard to find online. 2. It refers to a supplemental book for pretty much all the UCC provisions and Restatement sections. I bought this edition to save some money for my 1L Contracts class. I regret it.

Has almost the same cases as the 9th edition all you have to do is figure out the page numbers and supplement the missing cases with westlaw or lexis and you're set. If you want to save a ton of money i would highly recommend!

In addition to other comments on the dryness and counterintuitive organization of this book, I must point out that it is poorly edited as well. Many of the blatant typographical errors appear in the first

couple chapters, but they continue throughout. Multiple times I have found a quote that doesn't make sense and, upon looking up the source material, discovered that it was improperly transcribed (i.e. "diverse" becomes "divers"; "estopped" becomes "estoppel"; "an" becomes "and"). As a first-year student deciphering dense material, the last thing you need is to second guess the accuracy of the information you receive from your textbooks. I won't give the book 1 star because I've read no other Contracts casebooks for comparison, but I can give an inaccurate, poorly edited text no more than two.

I'm very disappointed with the authors of this casebook because it just shows sheer carelessness in putting out a quality product. It has way too many errors. There are grammatical errors, repeated paragraphs, (in one instance repeated twice consecutively) and other errors (such as misspelled words) that you can only wonder if it is a new legal term, or just a plain misspelled word. In a profession where every single word in every single sentence of every paragraph is crucial and significant, this is simply unacceptable and unforgivable.

Too many highlights and marks!!! I could barely write anything on the margins. very disappointed! Never buy it again for the textbook.
