World Coins & Currency, Warman's Companion

Synopsis

Access to coins and paper from around the world is at an all-time high, while prices continue to sit at higher than historical levels. With these factors working in tandem, capitalizing on opportunities, calls for insight on up-to-date information from a reliable source. With a blend of condition and grading details, updated values and full-color photos of Canadian, European, South African, African and Asian coins and paper money, this book is the perfect resource whether you're new to collecting or a seasoned collector looking for solid facts in a compact package.

Customer Reviews

Bought this for my husband who found old coins and paper money stored away. Thought this would provide some insight into the value. Wrong. It does not have US money included, so we must not be part of the world. Neither did it have the Brazilian currency we were looking for. Investigate the individual countries to see if they are included in this work before purchasing this book
