Our Wedding Scrapbook

Synopsis

Keep the most important memories of your life safe in this charming interactive scrapbook that offers welcome relief from hectic wedding planning and a way to create a personalized keepsake of the tender moments, celebrations, and romance of your wedding. From the leading lady at Martha Stewart Weddings comes a beautifully illustrated scrapbook that will make it easy for bliss-filled, overwhelmed newlyweds to create a book of their first wedded memories. From first-date impressions to how he popped the question from the excitement of the engagement and bridal shower through the Big Day itself and the romance of the honeymoon, this scrapbook allows brides to capture the memorable moments in a way that goes beyond the standard (and rarely looked at) wedding photo album. This scrapbook is designed for brides who want a lovely, original keepsake, but aren't sure where to start. Darcy Miller's whimsically elegant blend of art and text offers a framework to let the bride's unique style and personality shine through, as she prompts brides to press a blossom from their bouquet; commemorate the toasts; list the activities at the shower; send themselves a postcard from the honeymoon, and much more to make a book of memories to be enjoyed for years to come.

Customer Reviews

I wish I could find the author of this book, shake their hand and yell "THANK YOU!" at the top of my lungs. I'm getting married this fall and I've been looking for months for a scrapbook for my wedding that was in the style of a baby book, and I've had no luck. Either the pictures were bad or there were mushy phrases throughout the book or the book didn't feel sturdy enough or it didn't leave room for

expansion... I think you get the picture. Then, out of pure, dumb, luck I found this book. I have to say, this book is ~*everything*~ I could ever want. It's romantic without being schmaltzy, pretty without being overly formal, structured enough to give you ideas of what to add, but not so regimented that it snuffs out all creativity. This is, essentially, like a baby book that sort of documents your relationship, from the "How we met/Our first date/When we knew this was THE ONE" page, right on through to highlights from our first marriage, and finishing with a page which documents what you gave as anniversary gifts through your diamond anniversary. The cover is hard and sturdy, and even though I question how well the cover will look after a few years, structurally it will hold the book together which is all that really matters to me. Inside, the binding is a spiral binding with a cardboard bracer, so the pages don't flop around on the spine. One thing I love about this book is that even though this book is spiral bound, there is a lot of space for expansion after you add pictures and mementos. As any scrap booker can tell you, when you scrap in a spiral bound book, you have to remove a lot of pages to ensure the book will close flat (or close at all).
