Some might take captivity lying down, but they aren't Gaby. Will and Danny are close on Gaby's trail, but their rescue mission is detoured in a city under siege by a very dangerous new breed of ghouls. The reunited ex-Army Rangers will face their toughest fight yet if they want to get out alive. Back on Song Island, Lara prepares for an impending attack. She receives unexpected assistance from a man named Keo, an ex-mercenary with his own agenda. Meanwhile, the survivors' radio broadcast has elicited surprising responses from around the globe. It might be the start of a resistance against the ghouls' domination...if Lara can keep everyone alive long enough. Where The Purge begins, the Gates hold, and the Stones crumble, the Fires will burn... Author's Note: The Fires of Atlantis introduces Keo, whose prequel story can be found at: [amzn.to/1hX1hVM](https://www.amazon.com/dp/B00N9HVP8C). That book is recommended before starting Fires.

Like the previous three Babylon novels, the Fires of Atlantis has twists and turns you won't see coming that leave you thinking about the novel well into the night (if you don't finish it in one sitting, that is). We're learning more and more about the creatures and their overall plans for the planet, including some things they're evolving with that are truly terrifying. I loved the action-packed pages and the edge-of-your-seat plot line that I've come to expect from Sisavath. In fact, I re-read the first three novels again before jumping into Atlantis so I could completely submerge in Sisavath's created world. I might not should have done that, because the small issues I began noticing in the first couple of books kind of came to a head in Atlantis and a whole new one opened up. First, for the love of God please stop using the same lines for everyone. I can promise you that not every single person will say "tough girl" or "she's stronger than I thought." There are other ways you could get across those same thoughts without repeating the exact same wording. It got to the point that every time I saw those words I rolled my eyes. It always took me out of the story and had my thoughts drifting, which is never something you want to happen to a reader. This happened on numerous occasions and with a few other parts, but this was the biggest (and the most long-lived since it's happened in all four books) The other really major issue I had was Keo. At first, I kept waiting for an explanation of his history, including at least a small paragraph explaining his time running in the woods from men, why he has the scar and who Gillian was to him, as in how they met and how they were separated. I got none of that, at all.
