Customer Reviews

Upon opening the kindle edition, I was fascinated by its contents. Every page inundated me with new knowledge I never thought possible. Mr. Ganninger took great care in the research put into it and the passion he had for teaching us what we never thought of learning. Excellent work. Also, don't miss out on the Knowledge Stew website. That provides you with even more brain food. A definite thumbs up and a guaranteed recommendation

Like to annoy people by knowing something about everything? Like to be eccentric, or labeled "weird?" Give it a read. There's a lot of weird...stuff to discover in this book.

An enjoyable read that actually covered items I hadn't read in another source. Well written, entertaining, and very highly recommended.
