Best Sellers Rank: #395,838 Paid in Kindle Store (See Top 100 Paid in Kindle Store) #6 in Books > Humor & Entertainment > Puzzles & Games > Gambling > Baccarat #13 in Books > Humor & Entertainment > Puzzles & Games > Gambling > Roulette #764 in Kindle Store > Kindle Short Reads > 45 minutes (22-32 pages) > Business & Money

Customer Reviews

Earlier today I wrote a review for this book that somehow ended up as a review for Underground Craps Pro System Uncovered. I don't know how that happened. I never bought or read that book. I hope this second review will stay here with this book. This book is about a betting system that is supposed to make you some money over the long term with low risk. It works best for games like craps and roulette. I was skeptical about this before I read the book. I was even more skeptical after I read it. It was hard to understand how to implement this system as the book is poorly edited. For example, the author talks about how the reader should place a bet on the come out roll. The problem is that the author is talking about playing roulette. The other problem I have with the book is

that it contains no in-depth, logical explanations or math to validate why the system works. The author claims that the system was evaluated by pros who evaluate hundreds of these systems every year. Who these pros are and what credentials they possess is never discussed. Did these same pros also proofread the text for this Pulitzer Prize winner? Don't bother buying this book. It was poorly done.
