Criminal Justice In America

Synopsis

Cole, Smith, and DeJong's *CRIMINAL JUSTICE IN AMERICA*, Seventh Edition, lets you experience the real-world excitement of this dynamic field while helping you excel in your course with the support of proven, integrated study tools. In this engaging, reader-friendly book, you'll learn about new career opportunities in criminal justice and read true stories of offenders and their experiences within the system. You'll also learn about the crucial role that public policy plays in the criminal justice system and explore the hot issues that are changing the face of criminal justice today--and shaping its future.

Customer Reviews

This textbook is very current and had different examples of recent crimes and some highly notable cases from the media. I used 's textbook rental feature and it saved me a lot of money. The only thing I regret was not renting the e-Textbook instead (I took an online course so the search feature would have been an added bonus).

This seventh edition (2014) textbook has been regrouped and slimmed down some to incorporate the most up to date criminal justice system in America. However, the text is now fortified with tons of supplemental sourcing to include video library and study guides for students, such as CourseMate which is an online engagement opportunity included with the text to make studying portable and is designed to work with the textbook or ebook. Caveats of the most recent cases and cases of historic import have been included at precise intervals in the text to put application and

understanding to immediate use for the criminal justice and law student. Flow charts, graphs, pictures, and outside research opportunities make the text appealing and memorable, where much of the text becomes instinct. The text is attractive and a rather brief read of fundamental and complex systems of criminal justice, fashioned to appeal to students and professionals alike. If you're looking for comprehensive study material, this textbook delivers.

whats not to like? its for a class I am taking. it fills a purpose and fits the class. it is interesting even if I were not in a class and had to read it.

Title was good. Book condition worse than I expected but still usable. No time to return it so we are using it anyway. Water or coffee stains on a whole section where pages were once stuck together

Book came on time but had lots of highlighting and some writing in it, which I was not expecting, would probably order a book that I know for sure would have nothing inside even when used.

Just what I needed for school. Whoever had this before me really highlighted some of the good key areas for study. However, a lot of the pages were uncomfortably sticky.

My only complaint is that the book I received was missing the last chapter, that is not something I needed to find out about a week before my final exam!!!!!!

It was a used book, so I was expecting it to be highlighted and or various notes written on it. To my surprise, the book came in looking like it's brand new!
