## Customer Reviews

This is an enlightening read for someone who has experienced an abusive relationship via an individual with NPD. I would say "...suffers with NPD". However someone with this type of disorder

doesn't recognize they have a disorder in the first place as they are perfect in their own minds, therefore they don't suffer; their victims do. But I digress. For the most part, my questions were answered, providing insight in respect to my experience with being "hoovered" some 11 years back after 23 years of No Contact. I had no idea there was a name for this. Or that millions are abused via these positive energy sucking/negative energy spreading varmints. I find it rather ironic that a perpetrator is providing potential victims with the answers that could potentially aid them to freedom from this abuse. Note; "potentially" as it is profoundly difficult to succeed for most depending on the damage done. As I do find it ironic, I also recognize the author stands to benefit from all the books he sells. That fits the MO of a Narcissist, "to benefit oneself." None the less, I am grateful for the insight here. Something the writer would not understand as gratitude is not an attribute an N can feel or understand. Sad for them. Having said that, My rating is out of my gratitude for the insight provided. I've knocked 2 stars off for the grammatical errors and various explanations through out that were difficult to understand due to typos, mixed up or transposed words which were distracting at best. Are there no longer Editors? Oh that's right, to be a Narcissist is to be perfect.

Truth.. He tells us the TRUTH! These questions and answers are exactly what I would have asked myself. I'm just learning what I have been through. I had no idea. Finally feels like I am not crazy and I haven't ever been... EXCEPT FOR STAYING WITH HIM AND THINKING IT WAS MY FAULT! BLAME NO MORE!! I can be free. I will say that this is the hardest thing I've ever had to do. I recommend this book to any one who has found herself asking "what is wrong with me?" Don't I give him all that I am" this rating is a 5 because I am grateful for the brutal honesty. I love that it is real questions from real survivors. Answered by a NARC himself.

One of my favorites in his H.G. Tudor's series! Provides the inside guts to many scenarios across the board in dealing with a narcissist, ranging from seduction phase in the beginning, inside the bedroom, and why you can never get closure. It is like the cliffnotes to work in conjunction with his daily blog and other books and serves as a great refresher. Must have!!

This is a must read for everybody involved or having been involved with a narcissist. Here you will find all your thought, doubts, needs to know, you will have "aha" moments of enlightenment!! I cant praise enough this book. One of my favorites from this excellent author.

My eternal questions: Why? Why? Why? Now have become: why-why-why? I still wander what is

going on, but now I understand more. For me, married to a narcissist, this is a 5 - FIVE - star book. Before I was blind, now I can see, at least better than before. My eyes have been opened. Now I must learn to understand.

These books by H G Tudor gave me my closure I needed to leave my relationship for good. It made everything make sense and I am so grateful I found them. These books are addicting. Couldn't get answers from husband for 13 years and I got all my answers from these books. Thanks so much!!

This is an eye opening book for me. While I have struggled with the why's and howcome's for the past 7 years, I saw this book on , read the sneak peek inside it and decided I needed to read it. I'm forever grateful that I did. I FINALLY have answers to so so many questions I've been left to suffer with BT my now incarcerated ex. Thank you for sharing, honestly just your kind thoughts, functions, and is- please read if you have found yourself in a situation such as I dealing with a narcissist or cluster b personality disorder person.
