Customer Reviews

Great book to have for a starting paralegal. Although I must concede, a lot of this stuff is available online...but for someone who is just starting- it's quite nice to have it all done for you in one book. It's an essential guide to the field.

Great book for those who need the basic information used by paralegals. I would recommend this book to anyone interested in the legal field.

Very fast shipment! Just as described! Looking forward to using for school. Will update review once had more experience with book itself

It's very informative and helpful especially if you are just starting in the field. The manner everything is presented in the book can be hard to understand at first, though. But as you read and re-read, it becomes more familiar and you begin to appreciate the loads of very helpful information that a paralegal MUST know.
