Customer Reviews

I am a big fan of James Patterson books. However, this book was awful. I might have enjoyed the story if it was easier to follow. The punctuation was missing in some places and present where it should not have been. Words were missing or out of order. Spelling was poor. There was more but why bother. This will not stop me from reading other James Patterson books but I cannot imagine how this one went to press. An enormous disappointment.

Before buying ANY Patterson book, go online and make sure it's actually one of HIS! [...] I just wrote to Little, Brown & Co about this. Someone is using Patterson's name and I'm FURIOUS that they are allowing it! I'm hoping Little, Brown will get involved. The same thing happened recently with Stephen King! In case you're a King fan: Eight books that I know of so far are sold here as

Stephen King's work. Five books are "The Crossroad Series" (including: "Crossroads"™, "Dark Love-the Underground"™, "Blood Rituals"™, "Beast Control"™ and "Redstone"™); The other three are: "Descendants", "Grave Decisions", and "Awaken". In the meantime, I think anyone who has bought any of the fake Patterson books should complain straight to Amazon, demand they look into this blatant violation, and demand a refund! This sucks! BTW - if you look at the description of Patterson's books, these 3 - "Horrorified", "A Deadly Chase", and "Boiling Point" are listed as: "Sold by: Digital Services". His REAL books don't have "Sold by." - they have "Published by:" and the publishers' name (Little, Brown & Co, Bookshots, or Penguin). To anyone thinking about buying this book? Believe the reader reviews here! This is NOT Patterson! UPDATE: I contacted Amazon. They've promised to solve the problem.

Not written in the normal Patterson style and the book had no endings of any kind. I might as well have been watching a soap opera. I can understand leaving an opening for book 2 but this book left everything unfinished!!

This was an unedited mess. Formatting was odd, with paragraphs breaking mid-sentence in some cases. The grammar was awful, almost broken English in some places. I don't know what the problem was, but this book was not ready for publication.
