Best Sellers Rank: #491,926 in Books (See Top 100 in Books) #62 in [Books > Religion & Spirituality > Islam > Law](#) #121738 in [Books > Reference](#)

Customer Reviews

Just started reading this book, but I really appreciate the clear and concise break down of what is Shariah law. There is so much misunderstanding of this concept (even amongst Muslims) and this book does a great job (in the first chapters even) at explaining what this is really about. I wish more people would read this book and understand that Islam law 1) is nothing to be feared because it respects and honors ALL people and religions 2) is not going to be implemented and take over ANY country 3) that Muslims countries do not even implement it, and if they did, there would be far less turmoil and violence amongst them.

This is an extensive look into the rulings and principles of the four major schools of thought of the Sunni branch of the Islamic faith. After reading, one will understand the basis for most rulings in the history of the religion. I recommend some understanding of what the science of Fiqh is before reading this work. Excellent resource for intermediate and advanced students.
